D	2 2x4x17 @ 22°	\=====/	
E	2 2x4x11.5 @ 22°	\=====/	
F	3 2x6x???	=====	bench top
	4 Carriage Bolts		
	4 Nuts		
	4 Washers		
	48 Deck Screws		

After you've built my picnic table all you will need to build other projects like this wooden bench is a simple list of parts. When building benches it's very important to keep the legs wide and very close to the ends of the bench so it will not tip over.

This simple diagram is the under side of the bench top

You can see in the photos the benches have cross braces just like the tables
